SWE5006 · Team 8

Speaker Script and Live Demo Run Book

BlocBuy — Team 8 · Monday 26 October 2026, 16:30–17:15 SGT (Zoom)

Responsible	Yu Qianshuo (Yorik) (presentation lead, #464); slide master Lim Jiechao.
Companion files	`swe5006-presentation.html` — the deck (open in Chrome or Edge; **S** notes, **T** timer, **O** overview, **F** fullscreen, **B** backup index) · `swe5006-presentation.pdf` — the same deck as a PDF for submission.
Single source	`src/content.js` holds wording, timings, cues and Q&A; `src/slides-main.js` and `src/slides-backup.js` hold the slide layouts and `src/script.js` this document; shared UML diagrams come from `docs/presentation-kit/diagrams/`. Run `npm ci` once in `docs/presentation-kit/`, then `npm run all` in `docs/swe5006/presentation/`.
Status	Scaffold of 19 Oct 2026: placeholders until the SWE5006 guideline is applied. Slides due 23 Oct; rehearsal 25 Oct.

Markers

`[FILL]` value still to be supplied · `[VERIFY]` claim to check against the repo or report · `[CONFIRM]` needs team agreement. All must be gone after the 25 Oct rehearsal.

1 Project Introduction & Project Management Summary (4+0 minutes)

Clock	16:30:00 – 16:34:00 (4 min talk + 0 min Q&A; talk ends 16:34:00)
Owner	Lim Jiechao
Slides	1, 2, 3, 4, 5, 6

Lecturer's presentation sequence · Presentation Guidelines · Briefing deliverables (V1.0)

1a — Explain the context and the business problem that the solution as a whole is trying to achieve.
1b — Explain the scope of the project.
1c — Explain the current status of the project including outstanding issues.
1d — Describe the actual project milestones and the total effort expended by each team member.
1e — Explain how many sprints planned, Definition of Done (DoD) achieved.
1f — Sprint retrospective & reflection in the next sprint
1g — Agile process artifacts like product backlog, user stories, sprint plans, burndown charts, sprint reviews and sprint retrospectives.
